

## Correction to “Atmospheric rotational effects on Mars based on the NASA Ames general circulation model: Angular momentum approach”

Braulio V. Sanchez

Geodynamics Branch, Laboratory for Terrestrial Physics, NASA Goddard Space Flight Center, Greenbelt, Maryland, USA

Robert M. Haberle and James Schaeffer

Space Sciences Division, NASA Ames Research Center, Moffett Field, California, USA

Received 22 September 2004; published 30 November 2004.

**INDEX TERMS:** 9900 Corrections; 5450 Planetology: Solid Surface Planets: Orbital and rotational dynamics; 6225 Planetology: Solar System Objects: Mars; 6207 Planetology: Solar System Objects: Comparative planetology; 0343 Atmospheric Composition and Structure: Planetary atmospheres (5405, 5407, 5409, 5704, 5705, 5707); **KEYWORDS:** atmospheric model, Mars, rotation

**Citation:** Sanchez, B. V., R. M. Haberle, and J. Schaeffer (2004), Correction to “Atmospheric rotational effects on Mars based on the NASA Ames general circulation model: Angular momentum approach,” *J. Geophys. Res.*, *109*, E11007, doi:10.1029/2004JE002364.

[1] In the paper “Atmospheric rotational effects on Mars based on the NASA Ames general circulation model: Angular momentum approach” by Braulio Sanchez, Robert Haberle, and James Schaeffer (*Journal of Geophysical Research*, *109*, E08005, doi:10.1029/2004JE002254), the authors’ affiliations were incorrect. The correct affiliations and mailing addresses are presented here.

[2] Additionally, the first heading in Table 4 was incorrect. Instead of “Polar Motion, cycles per year” it should read “Polar Motion, period in years.”
